UP & COMING EVENTS

Ruma Tupu

Throughout Term 2 all the students at Waima Kura will be taking part in an exciting learning adventure known as PREP (Primary Enterprise Programme). It is an exciting and engaging way of learning through the use of real world contexts and scenarios.

PREP (Primary Enterprise Programme) is a cross-curricular programme where Year 1-8 students design and operate their own functioning community. The programme will be running over the course of Term 2. It has strong links to the Social Sciences curriculum and allows students to engage in economic activity and contribute to their community. The programme culminates in a market day, with family and friends invited to take part.

Student Learning

Through PrEP, students:

- > Gain knowledge, skills and experiences in the Social Sciences Curriculum (Levels 1 - 4)
- > Learn about managing money, making decisions, production, earning income, spending, saving and governance
- > Learn how to participate and contribute to an economic activity and a community.

Curriculum Links

PREP links student learning to the Economic World Strand of the Social Sciences Curriculum. It also links to the Curriculum Strands of Identity, Culture and Organisation, and Place and Environment. Students will apply skills from the English, Mathematics and Statistics and Technology Curriculums, develop the five key competencies and engage with the vision, principles and values of the New Zealand Curriculum.
